Price Information

HOW TO FIND YOUR COST

Your Cost is shown on the bottom line of the descriptive copy of each illustrated item. The bottom line contains the model number of the item shown, the reference price, and the words Your Cost, followed by an amount which is Your Cost for the item described.

The Reference Price referred to above is not our present or former selling price. It is either the suggested list price recommended by the manufacturer, or when this is not available, our estimate of the comparable price of similar merchandise being sold at retail by some stores in this area.

Example:

1721-463 $690.00 ..... Your Cost $475.00

Model No. | **Reference Price** | **Your Cost**

HOW TO FIGURE PARCEL POST

To find your zone, determine the distance you are from Houston, and use the zone covered by this distance.

If you do not know your distance from Houston, phone your local post office to determine the zone in which you are located.

Add up the weights of the articles selected.

Refer to the chart below to determine your postage.

Add in the amount of the Insurance Fee as per chart to the right.

(Example: If you are in Zone 3 and your purchase totals 15 lbs. in weight and $46.50 in amount, the postage is $2.83 and the insurance fee is 85¢; so the total amount to send is the $46.50 plus $3.68, or a total of $50.18.)

Items that do not show shipping weight, weigh less than 1 lb. Refer to instructions directly to the right for the correct mailing fee for these items.

FREIGHT

For items that state "freight shipment only," refer to freight information and freight chart.

Pricing of Gold Jewelry

For well over a quarter century, we have been known throughout the entire Southwest for offering our customers the greatest values and the largest selection of fine jewelry. To continue this policy of giving our customers the best possible savings, we have established this price policy.

As everybody knows, the price of gold fluctuates daily. In the past few years gold has been as low as $295.00 per ounce and as high as $850.00 per ounce. In an effort to give you the customer, the best possible price for fine jewelry, we have established this method on pricing 14kt. and 18kt. gold jewelry. Our method will enable you to buy jewelry based on the current price of gold and obtain the best value for your money.

CURRENT PRICE OF GOLD	SELLING PRICE
$336 per oz. to $385 per oz.	Deduct 23% from your cost shown in catalog
$386 per oz. to $435 per oz.	Deduct 19% from your cost shown in catalog
$436 per oz. to $485 per oz.	Deduct 15% from your cost shown in catalog
$486 per oz. to $535 per oz.	Deduct 11% from your cost shown in catalog

EXAMPLE: If the price of gold on a specific day is $425.00 per oz. and the cost listed in the catalog is $115.00, deduct 19% from this price. Therefore, your current cost would be $93.15 plus sales tax.

IF THE CURRENT PRICE OF GOLD DOES NOT FALL WITHIN THE CHART ABOVE, PLEASE CALL OUR STORE FOR FURTHER PRICING INFORMATION.

Polaroid

Sun 600

A.

NEW

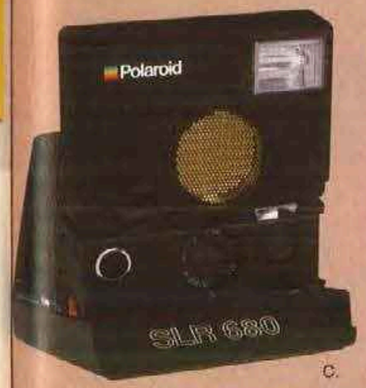
Lowest priced Sun Camera ever!

(A) Polaroid's Sun 600 LMS.
Incredible value at an incredibly low price! The new Sun 600 LMS features a Light Management System that blends just the right amount of light from the flash with natural light . . . automatically. And you never buy flashbars; the flash is built in. Sun 600 LMS offers a fixed-focus lens for sharp, clear pictures. Shoot from four feet to ten feet indoors, four feet to infinity outdoors. Sun 600 LMS uses 600 High Speed film—the battery is in the film pack.
605037 — Price on Request

Advanced technology at an affordable price!

(B) Polaroid's Sun 660 Autofocus.
Offers automatic sonar focusing and an automatic built-in flash that fires every time, indoors or out. And the Sun 660 Autofocus blends just the right amount of light from the flash with natural light for more pleasing, evenly lit photographs. Shoot as close as two feet with no special lens. Sun 660 Autofocus uses 600 High Speed film. Never buy flashbars. Never buy batteries.
603976 — Price on Request

B.



C.

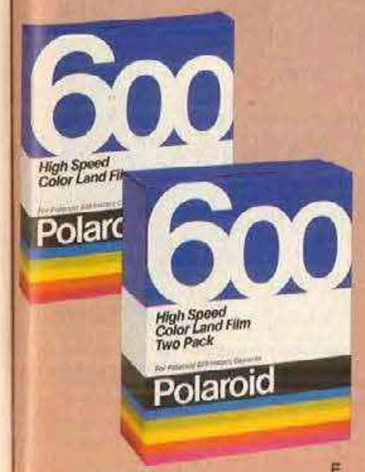
Most advanced!

(C) Polaroid's SLR 680.
SLR 680 was designed with the serious photographer in mind. Its sophisticated electronics allow you to concentrate on the subject, not on the camera. SLR 680 features automatic sonar focusing and a built-in directional flash that not only fires every time, but also changes position automatically to properly light your subject. A four-element precision glass lens means sharp photographs. Takes perfectly focused pictures as close as 10.4". Elegantly designed, it even folds for carrying convenience. Uses 600 High Speed film.
605308 — Price on Request

Great gift idea!

(D) Polaroid's OneStep 600.
This is the least expensive 600 Series camera ever. As simple to operate as the original OneStep, it uses 600 High Speed film for sharp, clear results, improved motion-stopping indoors. OneStep 600 improves flash exposures with its infrared sensor. It uses lower priced 600 Flash with all ten flashes on one side. You never pay to replace batteries because a fresh one comes in every film pack.
605924 — Price on Request

D.



E.

(E) Polaroid's 600 High Speed film.
World's fastest-rated instant color film. Ten pictures per pack. Fresh battery built into film pack powers camera, flash, and system electronics. Develops in seconds.
