Did You Know?

Legend promotes certain gemstones as having therapeutic healing properties. In the time of cold and flu season, it is thought White Beryl may benefit and revitalize the lymphatic system. Placing Bloodstone on stuffy sinuses, achy joints, or congested chest will ease discomfort and Aventurine is thought to expel disharmonious energies from the body's organs preventing illness to begin with.

Before handling any gemstone, be sure to wash your hands!

April Birthstone

Diamond. Diamonds are synonymous with love, purpose, dedication, and devotion. Since ancient times, diamonds have symbolized invincibility for those born in April because of their hardness and durability.

 BRILLIANCE YOU DESERVE®

Salt & Pepper Diamonds: Go Against the Norm

If you are looking for a diamond that teems with personality, is simply stunning, and completely unique, look no further than a salt and pepper diamond. Salt and pepper diamonds are not your typical run of the mill diamonds. You won't find them listed in any Four Cs guide.

Why? Because salt and pepper diamonds are for the most part, filled with inclusions of varying white and black blemishes or flaws. Salt, the term for white inclusions, and pepper, representative of black carbon spots. These exquisite diamonds have been

around for years, although unfortunately considered by many as undesirable.

Today, salt and pepper diamonds are one of the hottest diamond fashion trends. While flawed, they are still diamonds, and they are still incredibly rare and valuable. The only difference being they have a very unique splash of character. Salt and pepper diamonds are a perfect alternative diamond engagement ring for the modern bride-to-be, and a stunning twist on everyday diamond earrings and pendants.
