Did You Know?

Now is a good time to start taking better care of your valuable jewelry. **Diamonds** attract grease, reducing brilliance and sparkle. **Pearl necklaces**, if worn often, may stretch and weaken. **Gem settings** can become worn, causing gems to come loose and fall out. **Gold jewelry** may be scratched and look dull. This year, resolve to protect your investment and visit us for a professional jewelry checkup.

January Birthstone

Garnet. Traditionally regarded as the gem offering constancy, compassion, and faith, wearing garnets was believed to purify the body's energy by getting rid of toxins and restoring the body to its revitalized and re-energized state.

 BRILLIANCE YOU DESERVE®

Glittering Ear Studs

This New Year's Eve put on your party clothes and light up the night with a set of studs! Earrings are always in vogue, providing a flash of femininity, sophistication, and attractiveness from season to season.

In 2018 we saw a wide variety of elongated, shoulder dusters which provided an opportunity of unlimited choices in metals and gemstones.

Kicking off this season, the most popular ear adornment focuses on glittering ear studs in designs of geometric shapes, rounds, squares, triangles and spirals. While classic studs set with a solitaire diamond, pearl, colored gemstone or simple gold ball remain the most popular, designers are offering many new and fashion forward designs in all sizes, yellow, white and rose gold and sterling silver, plain or encrusted with micro pavé diamonds.

Of course, you can always show off your unique side and kick it up a notch by mixing and matching your studs to match your mood and outfit!

BIRTHSTONE OF THE MONTH:

Garnet
