Did You Know?

Each new year we vow to put aside unhealthy habits and resolve to do better. Here are four tips to take better care of your jewelry. **Clean your Diamonds.** Lotions and oils are harmful. **Restraining Pearls.** They can stretch and become weak. **Check Gem Settings.** These metal parts hold gems secure. **Clean Gold Jewelry.** Use a soft cloth. The best way to care for your fine jewelry ... bring it to us for a full checkup.

January Birthstone

Garnet. Traditionally regarded as the gem offering constancy, faith, and truth for those of January birth. The diversity of color and appearance places garnets among gemology's most alluring subjects.

The Humble Paper Clip

The paper clip chain is fashion's latest must-have jewelry design. Gold or sterling silver paper clip necklaces, bracelets, and earrings are simple, beautiful, and easy to wear alone for a minimalist approach, or mix and match for an impactful statement.

Start by investing in one thick or thin paper clip chain to dress up or down,

add a few charms, layer mixed metals of different textures and lengths. You cannot go wrong with a paper clip chain, especially when embellished with gemstones or diamonds.

By their prevalence on Instagram and other social media platforms, paper clip chain designs have become universally wearable for all occasions by all ages and genders alike.
