Did You Know?

For thousands of years, the lustrous white pearl has been cherished as a symbol of love and purity. Pearl is the only organic gem that naturally comes into the world from a living host. As stated by the International Gem Society, "Pearls are gems but not stones." Much like mother and child, the creation of a pearl is a natural wonder of nurturing beauty and love, making it the perfect gift for Mother's Day.

May Birthstone

Emerald. It is emerald's appearance and color that make this gemstone instantly recognized. A variety of the beryl species, this famous green gem has long been associated with eternal spring, new life, and healing.
