FOCUS ON FASHION

Golden Geometric Shapes

Geometry and symmetry lend themselves beautifully to karat gold jewelry with clean lines and familiar shapes. Available in many colors, quintessential yellow gold remains the most popular.

Seasonal wardrobes are a canvas for this bonding between shapes, space, and angles of wearable golden art. Must-have essentials are the grab, go, and head out the door pieces that complement and complete any outfit with a stylish appearance.

High-polished, textured, and moveable designs with a modern edge are all the rage this season. Whether for a gift or well-deserved self-purchase, yellow gold jewelry will elevate the basics to elegant have-to-haves for any jewelry lover.

Did You Know?

To keep your gold jewelry looking bright, gently clean it in warm, soapy water and buff dry with a soft cloth. Avoid chlorine and other harsh chemicals that may weaken prongs or harm gemstones. Is your gold in need of a holiday facial? Visit us for a checkup, cleaning, polishing, or replating. We'd be happy to restore its shine!

November Birthstones Topaz/Citrine

The November born can choose between two sunny gemstones. Topaz and citrine, both known for their calming energies, bringing warmth and fortune to those who wear them. While they may look the same in color, they are unrelated, and topaz occurs in a wider variety of colors, blue being the most common.
