Did You Know?

Pumpkin Spice Lattes are synonymous with autumn. The popular drink has a passionate following and has inspired many pumpkin spice spin-offs, including a ring designed in its honor. A PSL ring was developed in England and includes a rose gold band to reflect the color of a pumpkin and a whipped cream shaped diamond cluster center surrounded by small orange sapphires in a cup-shaped claw.

November Birthstones Topaz/Citrine

The November born can choose between two sunny gemstones. Topaz and citrine, both known for their calming energies, bringing warmth and fortune to the wearer. While they may look the same in color, they are unrelated, and topaz occurs in a wider variety of colors.

Two-Stone Rings

Two-stone rings are a popular choice for anyone looking for a unique and meaningful piece of jewelry. Sometimes referred to as "Toi et Moi" meaning "you and me" in French, two-stone rings often represent two people in a relationship.

These rings feature two stones, either identical or complementary, set in gold, silver, or platinum. Popular styles include differently shaped diamonds, or one diamond and one colored gemstone, or even two different colored gemstones.

Two-stone engagement rings are becoming more popular as are two-stone fashion rings, worn on any finger. Mix and match with other rings to create a multi-dimensional, unique look. Stylish and elegant, two-stone rings elevate your jewelry wardrobe.
