Head-Turning Hoops

Did You Know?

Clear white diamonds are world famous for their brilliant sparkle and fire. But surprisingly enough, diamonds also come in a rainbow of vivid, flashing colors. Colored diamonds, called "fancies," are available in an array of exciting colors and look especially breathtaking when set as a center stone flanked by sparkling white diamonds.

September Birthstone Sapphire. Second only to diamonds in hardness, sapphires are ideal for daily use and make beautiful additions to engagement rings. Sapphires are thought to ward off disease, bring peace and happiness, and have long been given as a token of love and loyalty.

Hoop earrings have been a popular choice in the world of jewelry for decades. From simple, classic designs to more elaborate and intricate styles, there is no shortage of options when it comes to hoop earrings.

Oversized hoops add a bold touch to any outfit and come in various sizes, thicknesses, and textures. Huggie hoops are smaller and hug the ear-

lobe, making them a great option for casual, everyday wear. Threader hoops thread through the earlobe and hang down, creating a delicate and elegant look. Double hoops are a fun twist on the classic hoop earring and feature two hoops that are connected.

No matter which style you choose, hoop earrings are a great way to add a touch of elegance and sophistication to any outfit.
